MacBook Air, OS X El Capitan (10.11.6), Xcode Posted on Nov 26, 2018 9:57 AM Reply I have this question too (573) I.

Nov 26, 2018 I can't find the way to download the Xcode that is appropriate for ElCapitan, the App Store points to a more recent version for High Sierra.. 11 El Capitan, and watchOS 2, all of which will be released to the public in the coming weeks.. Download Xcode Beta Update: Download Xcode 12 Beta DMG Installer; You can visit the Apple website here: or wait for the public released of the software.
